

YM86B Spraying edge banding machine (4 layers)

Application: hot melt adhesive coated with another layer of edge banding, the original volume width increased to several rolls of width. can make the weight of non-woven bigger then the original without changing the width of non-woven fabric

YM86B Spraying edge banding machine (4 layers)

YM86B型喷涂封边机（四层）

用途：热熔胶刮涂与另外一层边粘合，使原一卷的门幅增加到几卷的门幅，可在不需改变无纺布生产设备门幅的情况下加工出大于原来门幅几倍的无纺布重量

Application: hot melt adhesive coated with another layer of edge banding, the original volume width increased to several rolls of width. can make the weight of non-woven bigger then the original without changing the width of non-woven fabric

项目 Item	参数 Parameters
辊面幅宽 (mm) Roller width(mm)	3400
收放卷最大直径 (mm) Max.diameter of unwind and rewind	Φ800
热熔刮涂宽度 (mm) width of hot melt scrape coating	3~10
